

Dear KAHHF Supporters,

I truly appreciate your interest in the Bone Marrow Drive Campaign by Korean American Helping Hands Foundation. The purpose of the organization is to provide a free guide to medical services for people who are diagnosed with certain catastrophic illnesses or to those that cannot financially afford medical care. The mission of our Bone Marrow Drive Campaign is to fundraise and campaign to overcome leukemia.

So far, from our campaigns, the survival rate of Korean leukemia patients soared up to 20 percent. In addition 400 Korean New York City residents can maintain everyday health from chronic disease prevention programs such as diabetes and blood pressure screenings along with flu vaccinations. Also we are running “Sharing Happy Dinner” and “Thanksgiving Banquet” campaigns to comfort, encourage, and empower cancer patients. Especially through emergent financial support, we provide chances of receiving medical care and hope of recovery to patients who gave up hope. In 2014 5 Korean patients with incurable diseases received continuous medical care benefits through our program. Because of the great support of the Korean community to the KAHHF BMD campaign, we are able to contribute and influence the search for bone marrow donors in New York area but also all over the United States.

Your contribution is very critical for KAHHF to carry out these campaigns. Please join us to build an even happier community for many people.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Kim", written over a light gray rectangular background.

Andrew Kim, MD  
President of KAHHF
